

## Lap Band Afterwards

### Lap Band Afterwards

For Rebecca, having lap band surgery delivered the Lap Band Satisfaction she sought. She went not long after the surgery from a size 22 to a size 16. Rebecca says that some of her clothes even began falling down on her, clothes that not that long ago she had trouble putting on because they were so tight.

Her kids also noticed a difference in her, and she says she is now more responsible with what kinds of food she eats.
